

COVID-19 Admissions Policy Amendments

Due to COVID-19 precautions and closures, Trevecca's PA Program will be making the following temporary adjustments to their admission policies for the 2023-2024 CASPA cycle:

1. We recommend the GRE be taken at a testing center to minimize the risk of test administration problems. If you cannot locate a testing center near you, we will accept GRE tests administered "at home." The PA program will not process your application for interview selection until your **official** GRE score is posted to your CASPA application. The official score must be posted to CASPA no later than October 1 at 11:59 pm **Eastern Standard Time**. The GRE code for Trevecca is #0532.
2. As of fall 2021, we returned to our prior standard requirement that all science courses be taken in person. We understand some areas of the country and the world continue to have limited access to in-person educational opportunities due to COVID. If you have a COVID-related reason for taking, or needing to take, a science course in an online or hybrid format, please reach out to us as we will be reviewing individual situations for approval and requesting an exemption form to be completed.
3. Any online or hybrid science courses taken during spring, summer or fall of 2020 and spring and summer of 2021 will continue to be accepted under the prior COVID-19 policy. At the time of application via CASPA, please list all science courses which you were required to take as online/hybrid during this time due to COVID university policy.
4. We strongly advise our prospective students not to utilize the option of pass/fail or satisfactory/unsatisfactory even if offered by your university. As a future graduate student, having a letter grade to reflect mastery of course material is critical and provides academic comparison.

In summary, submitting an application before completing all of the admissions requirements will cause your application to remain on hold. You will be eligible for the interview selection process **only after all** requirements are completed. The last day to **submit and complete** an application with **all** requirements fulfilled is October 1, 2023 at 11:59 pm EST. No submissions of any type will be accepted after that date. If you have further questions, please contact one of our admissions team members. We look forward to working with you during the application and admissions process!

Teresa Vines, PA Admissions Coordinator, tvines@trevecca.edu
Katrina M. Gill, Director of Admissions, PA Program, kgill@trevecca.edu
