

I. Policy Title: Student Clinical Site Recruitment**II. ARC-PA Standard Addressed**

A3.08 The program publishes and makes readily available to current and prospective students and consistently applies a policy stating that PA students are not required to provide or solicit clinical sites or preceptors.

III. Purpose and Scope: The purpose of this policy is to clearly articulate the policy and procedures addressing clinical site recruitment and student and institutional responsibilities.**IV. Responsible Party**

Program Director, Clinical Director, and Clinical Faculty and Staff

V. Definitions

Supervised Clinical Practice Experiences include family medicine, pediatrics, internal medicine (inpatient), emergency medicine, behavioral health, women's health and prenatal care, surgery, primary care, internal medicine (outpatient), and medical elective rotations.

VI. Policy

With the support of the Trevecca Nazarene University, the Physician Assistant Studies Program assumes responsibility for the recruitment of clinical sites and preceptors in sufficient numbers for the program-mandated supervised clinical practice experience (SCPE) component of the curriculum. Students will not be required to provide or solicit preceptors or clinical sites for the program mandated clinical experiential learning component of the program.

Students may voluntarily submit to the Clinical Director the name(s) of potential preceptors and/or clinical sites not already affiliated with the University Physician Assistant Program. There is no direct or implied guarantee on the part of the program that the student will be assigned a rotation with any requested preceptor or clinical site, including those already affiliated with the program. It is ultimately the responsibility of the Clinical Director and the Program Director to judge whether the preceptor and clinical site are deemed appropriate for use in Supervised Clinical Practice Experiences.
